For more information on PPG ProLuxe™

IMPORTANT NOTE: Transparent stains will look different than what is being presented on brochure depending on various factors including but not limited to; age of wood, previously stained, never stained, pressure treated, how weathered is the wood, exterior, interior, species of wood (red oak, white oak, walnut, cedar, pine, maple, redwood, etc). To see how the stain would respond to your particular wood, you can supply a sample to Legacy Painting to test for you, or talk with your Legacy Sales Rep to learn your options. The colors shown are merely a tool to help you in your decision and may not be a complete list of every color available. Contact Legacy Painting for questions.

**These colors are a product of PPG ProLuxe™. This color sample PDF was created to help Legacy Painting, LLC customers with decision making when choosing their ProLuxe™ wood stain color.
